

Recap.
San Diego SIP Bump-Up 2008 & 2015 Ozone Standards
CARB, SD APCD & US EPA

August 2, 2019, 2:00 – 3:00 p.m., Room 720

Attendees

CARB		SD APCD	US EPA
Jeremy Avise	Carol Sutkus	Bill Brick	John Kelly
Mark Hixson	Melissa Venecek	Nick Cormier	Jeff Wehling
Stephanie Parent	Zhan Zhao	Kathy Keehan	
Leo Ramirez		Rob Reider	

1. Recently Completed Items
 - a. Gridding complete for the base year. The 2026 data were completed on 8/6/19 and handed off to the modeling group.
2. In-progress Items
 - a. Modeling is on track to complete it by 8/30, depending on the results of the future year modeling.
3. District Updates
 - a. District workshops will be held the week before December 25, 2019. They plan to hold several workshops on this plan.
 - b. RACT Rules: the District is going to their Board in February 2020 for their engines and boilers rules and in approximately March 2020 for their adhesives rule. Their landfill rule will take approximately a year or so to complete. They may have to prepare a commitment or look into other options.
4. Continuation of RACT Demonstration with EPA Staff (John)
 - a. No update. We will keep it for a future agenda item.
5. Update on Milestone Compliance Demonstrations (MCDs) Requirements (John)
 - a. No update. We will keep it for a future agenda item.
6. Section 185 Fee Program and Due Date Requirements (John)
 - a. The Moderate-to-Serious Bump-Up notice was signed on 8/7/19 and will be published in the FR approx. mid-Sept. and become effective approx. mid-October. But it probably will not address the Section 185 program because the bump-up is not to Severe, only from Moderate to Serious. If San Diego bumps up to Severe later on, then a schedule would be created at that time.

- b. Stephanie P. to email John specific questions he can take to the workgroup. If anyone has questions, please email them to Stephanie P. by Friday, August 16.
- 7. Local Contingency Measures (Jeff)
 - a. Jeff. W. clarified that they need a commitment to prepare a rule or a rule that has a trigger, then look at one more year of reductions. Look at SJV and SC approvals. However, EPA was challenged regarding the SJV approval. Briefings should wrap up by January to mid-2020.
- 8. 2008 ozone standard revocation status (John)
 - a. This item is tabled for a future agenda.
- 9. Next Meeting: San Diego/CARB/US EPA call Friday, October 4, 2019, 2:00 - 3:00 p.m.
